

Hi, my name is Kelsey Dahl, I am representing as a MADDC (Minnesota Association of Deaf Citizen) at Large,

Hi, I am Phillip Steinbruckner, an Activist and advocate.

Kelsey: Yes, we want to discuss about, what concern about CEO President, for Minneapolis Fairview SUD program plan to cut Deaf/HH program on February 10th 2020, merging with a hearing program with using interpreter services and it is limited communication, cultural access and linguistically deprivation. We need to show Fairview that we need equal communication access that is really important to us and we value this.

Phillip: Thank you, this is a wonderful opportunity to have the community participating on this Thursday, January 23rd at 7:30am to 8:30am! It's a short and sweet to come to the rally, where the CEO of M Health Fairview will be meeting in the hotel to discuss healthcare goals of 2020. This is the way to show them, that they made the decision to cut Deaf/HH SUD program for Deaf/HH/Deafblind individuals who struggle with alcohol and drugs use abuse to become sober needs to have equal access, cut no! Encourage all of you to come and use any of our flyers, and factsheets giving out in the public.

Kelsey: Yes, we hope to see you there, and is aware that it's going to be cold outside but it will take an hour to do so which it is important to be there when the CEO is there. We want to hear your stories and how wonderful this program ran for 30 years, wow! It's important to value this program and to save.

Phillip: I want to add, if you cannot attend this rally, there are ways for you to support this, by signing the petition on this link, contact local legislators to share your stories and concerns about our SUD Deaf/HH/Deafblind community, and write letters to CEO plus Vice President, Chris Hickman. This is important for them to hear us, demanding our equal access for the Deaf.

Kelsey: Yes, you all can go ahead and contact him for more questions if you're not sure about the rally, and welcome to reach MADDC for contact if have any additional questions about SUD. Also, we are very supportive of this to encourage our community to participate. At the same time, we have involved community members and many organizations to collaborate together to make this happen. Now it is an amazing opportunity and needs more people like you to come!

Phillip: Thank you for watching us and give your support!
